

What the guidance says	Our guidance to you
<b>Direct doubling of the amount.</b>	Schools will typically receive £16,000 plus £10 per pupil so an average sized school will receive circa £18k.
<b>Cannot be used to cover PPA time or curriculum PE lessons - this money must be paid from the school's core budget.</b>	This does not mean that you can't deliver these sessions, they simply cannot be funded by Sport Premium. Our advice has always been for you to go in to a school and do such a good job working alongside teachers, that the school decides it's great value to buy you in from school funds to deliver high quality PE as part of the school team. Good practice would be you to deliver one hour of PE per class and then work alongside the teacher for the 2 <sup>nd</sup> hour to model high standards #irreplaceable
<b>7/12<sup>th</sup> of new allocation will be paid on 31st October 2017. The remainder will be paid in April</b>	Schools will WANT to spend money next week! Ring, email and visit schools using a clear campaign. Centrally we will be issuing our British Fencing campaign next week, offering funded taster sessions to 1000 new schools. You should send copies of our new school brochures into every school within your territories. If you don't have the capacity to contact all schools yourself then speak to TIME associates to help.
<b>Schools must use the funding to make additional and sustainable improvements to the quality of PE and sport</b>	Premier will be working with UKactive kids to create a 'Sustainability Plan' with data drive evidence to present to the DfE regarding the importance and impact of high quality providers working in schools. This will include using <b>your</b> impact data from the BMS so the better the data the better positioned we will be.
<b>Schools must use the funding to make additional and sustainable improvements to the quality of PE and sport</b>	One of the national curriculum aims for PE is to 'lead active and healthy lives' Using Fun-Triton as a foundation/enrichment programme for 12 weeks per year helps to raise the understanding and importance for children to ensure sustainable improvements and engagement.
<b>Develop or add to the PE and sport activities that your school already offers</b>	Gap analysis – What products are you not yet delivering in schools? Simple and easy way to upsell using this guidance and offer Wellbeing, Performing Arts, Start Active, Holiday clubs etc – all measured, with impact outcomes.
<b>The engagement of all pupils in regular Physical Activity - the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school</b>	Before school, lunch time and after school clubs are the perfect way to add variation and target/focus groups to provide opportunities for ALL children (not just 'sporty') to be active.
<b>The profile of PE and sport is raised across the school as a tool for whole-school</b>	Use our 'physical literacy' e-book to share ideas with school and then arrange a meeting to

<b>improvement</b>	discuss ways you can help. This can be found on the BMS resource section.
<b>Broader experience of a range of sports and activities offered to all pupils</b>	Dance, Drama and Fun-Triton are perfect programmes for this, helping children to have a greater understanding of the importance of being active. And it's fun!
<b>Increased participation in competitive sport</b>	Contact your local School Games Organiser and help them to facilitate competitions and encourage schools to take part. If you support a competition with 20 schools involved you have access to 20 influential people at one single event.
<b>Hire qualified sports coaches to work with teachers to enhance or extend current opportunities</b>	Fun-Triton is a perfect platform for this, leading into the #movewell element with Sport and Performing Arts.
<b>Introduce new sports, dance or other activities to encourage more pupils to take up sport and Physical Activity</b>	Performing Arts and Fencing can be used as perfect campaigns to work with new schools.
<b>Support and involve the least active children by providing targeted activities, and running or extending school sports and holiday clubs</b>	Share our evidence from the Personal Best programme, which made national news, with school leaders to show the importance and impact of holiday activities. Schools can fund these, or you could use the 'match funding offer'.
<b>Embed Physical Activity into the school day through active travel to and from school, active playgrounds and active teaching</b>	Use The Golden Mile to build a relationship with schools, use the data collected to help shape future provision for a sustainable model.
<b>You can also contact your local <a href="#">county sports partnership (CSP)</a> for support with spending your PE and sport premium.</b>	CSPs will have a big role to play in reporting on school spend and advising schools around the Sport Premium. Following the summer training with UKactive & our Partnership Manager around the importance of CSPs in the current landscape you will remember that we secured a meeting with Sport England to offer our local support to CSP with this. It's now more important than ever for franchisees to be building relationships with their CSPs.
